# Q2 2020

*market review*

The second quarter began with our region fully entrenched in a new normal amidst the COVID-19 pandemic and ended with a strong seller's market and historic low interest rates. Our region's typical peak season was delayed with May picking up momentum like a typical March, and June going off the charts in the way we would typically see in April.

There was not a single Mercer Island home sale below \$1 M in Q2. The bulk of Island sales were in the \$1.2 M to \$2 M price point (40 of 63 sales) and there were only four sales above \$3 M.

The Island's record shortage of homes for sale in Q2 continues to create a bottleneck of buyer activity with multiple offers common in the \$1.2 M to \$2 M segment of the market. Buyers are winning the competition by pre-inspecting and waiving typical contingencies more so that drastically escalating offer prices.

52% of all homes, and 8% of homes priced above two million dollars, sold for at or above their listed price.

The highest Mercer Island sale was a \$4.185 million, 2002-built Eastside waterfront home. Two "as-is" mid-island homes tied for the lowest sale of at \$1,000,000.

*A savvy way to search*  
**HOMES & STATS ONLINE**

Looking for real-time information on today's real estate market? If so, your search is over!

We publish weekly residential and waterfront reports, along with monthly and quarterly overviews, to **WindermereMI.com/Reports**, providing a summary analysis of what's happening each week in 18 different residential and condo micro-markets throughout Seattle, Mercer Island and the Eastside.

In addition to statistical data, you'll find resources for researching homes and neighborhoods, community profiles, maps, links and school data at **WindermereMI.com/Research**. And, you can search for every property listed for sale—by any real estate company on **WindermereMI.com**.

How have these latest market trends affected **your** home's value?

Stay in the know—contact me any time for a complimentary home value analysis.
